

Patient Transfer Scale

Model No.: YSL /YSI-176(PTS)

Every Minute Counts

- A transfer board with a built-in medical scale provides a weight measurement when transferring a patient
- Presents an accurate weight when it is critical for safe medication management for time sensitive patients
- Can be utilized as part of an existing patient transfer process

Weigh immobile patients quickly and easily

Measurement of patient weight is essential for administration of correct drug dosages and treatment. Take the guesswork out of the equation, and improve patient safety.

Patients with limited mobility can be difficult to measure. Until now, options have been scales that are undignified for the patient, take too much time to setup and use, or are prohibitively expensive.

Specifications:

- Digital weight Display.
- Wipe clean surface
- Power : Internal rechargeable battery.
- Weight capacity : 250kg.
- Resolution : 500g
- Dimensions : 180 cm long by 60cm wide
- Material : High density polyethylene similar material
- Function : Tare and hold
- Units of measurement : kg
- Automatic on/off

Save time

- Measure weight as part of existing patient transfer procedure
- Receive weight results quickly and easily
- Light and portable

Reduce exertion

- Weigh patients safely, with less physical effort
- Results displayed on large LCD screen
- Non-irritant surface is safe and easily cleaned
- No need to constantly swap batteries - keep the scale ready-to-go using magnetic charging port
- 250 kg capacity, 500 g graduation
- Simplify workflow and improve efficiency
- Hold function stabilizes weight of unstable patients
