

YORK

YORK MAGNETIC STIRRER WITH HOT PLATE

This product is used for liquid heating and stirring equipment in modern oil, chemical, medical and sanitary field, environment protection, biochemistry, experimental analysis and education & research development field.

SPECIFICATIONS :

- Temperature range of ambience +5°C to 380°C is adjustable in 1 degree increment.
- Digital Stirring heating speed range: 100 to 2000 rpm.
- Plate Size: 300 x 200 x 120mm
- Stirring capacity: 5 Liters & Plate load 10kg.
- Motor type: DC. Voltage: 220V.
- Hotplate with St. Steel enamel surface with excellent chemical resistance.
- Easy-to-read backlit LED display. (Digital)
- The product is fashionable and attractive, easy to operate with effective use.
- Stirring heating Plate size: 190 x 190mm.
- It is stepless speed regulation that is easy to operate and it can make stable precise stirring to liquid solution within a wider speed scope, especially in the experiments of samples with small volume.

Temperature control method:

- (1) Electric temperature adjust
- (2) Microcomputer intelligent temperature control.

Model No. YSI-508
